

English C Course Semester 2 2002

Theme: **Multimedia Assisted Learning**

Lecturer's name: **Richard Blight**

Course objectives:

- : to develop English listening skills
- : to develop English vocabulary knowledge
- : to improve understanding of English grammar

Course content:

Students will study a General English computer learning course called ELLIS (English Language Learning and Instruction System).

Information for students:

Students will work individually on a computer in the MALL (Multimedia Assisted Learning) laboratory.

Textbook/materials:

Computer CDROMs will be provided for use during the class. A *Class File* will also be provided to each student which should be brought to each class. Students should bring a pen or pencil and some paper for taking notes, and an English-Japanese dictionary is recommended.

Evaluation:

Work completed during each class should be entered onto the *Classroom Worksheet* which is in the Class File. The *Classroom Worksheet* is collected at the end of semester for grading purposes.

100% Classwork (as completed during the semester)
